

Attachment 1: Delete FOS Level 4 Requirements

Baseline: 12/20/96

L4 id	req_key	rel	req_type	ver_method	ver_status	CCR	clarification	text
F-ANA-07040	-1646	B	functional	analysis	<u>unverified</u>		For example, the user can request to be notified if a limit is predicted to be violated in the next 5 minutes. The user would not be notified of any violations which are predicted in more than 5 minutes.	The FOS shall provide the capability for the user to specify time criteria for notification of predicted limit violations.
F-ANA-07050	-1647	B	functional	analysis	<u>unverified</u>			The FOS shall generate an event message when a limit violation will occur within the specified time criteria.
F-FUI-02925	-1818	B	functional	demo	<u>unverified</u>			The FOS shall provide the following routine report templates: a. statistical reports b. power performance c. propulsion performance

L4 id	req_key	rel	req_type	ver_method	ver_status	CCR	clarification	text
								d. instrument performance e. anomaly reports f. memory comparison report g. memory image report h. memory map report i. event history report j. down link ordered report k. parameter out-of- limits report
